

# MODEL 34/44

**BIGGER IS BETTER.** The Model 34 and larger Model 44 are large, remote-reservoir, solvent parts washers with a greater surface area and workload capacity than sink-on-a-drum parts washers. Both models feature a fusible link safety lid, flexible metal spigot and lamp.

*Note: In order for the units to meet the definition of a "remote reservoir cold cleaner," the provided work shelves must be left in place.*
