PROTECTION·CHOICES·PEOPLE

Non-Metal Manufacturing

# Protect your workplace, your reputation and the environment.

If you are responsible for environmental health and safety, let the environmental professionals at Safety-Kleen help. Our services can be tailored to fit the unique needs of your facility, while still ensuring you're in full compliance with all local, state, provincial and federal regulations. Our practices provide the highest level of risk reduction in the industry, backed by our Certificate of Assurance and Indemnification.

We take financial responsibility for the services we manage for you. We protect you from future liability and give you the peace of mind of knowing your employees, customers and the community are protected.

## Choices that keep your facility clean & efficient.

You deserve sustainable choices. When you manage a facility, surprises are the last thing you need. Let the environmental professionals at Safety-Kleen show you how to reduce regulatory risk and prolong the service life of your machines. Nearly 4,000 non-metal manufacturing customers rely on us to clean parts that maintain machinery, remove their hazardous waste, manage their underground tanks and cleanouts, and much more.

### Containerized Waste

Safety-Kleen provides the proper handling, recycling and disposal of both hazardous and non-hazardous wastes. Our certified support teams will customize a service program to remove your waste materials at your convenience, while keeping you compliant with local, state and federal regulations.

- Solvent Waste
- Used Bulbs and Batteries
- Flammable Liquids
- Non-hazardous Plastic Scrap
- Used Absorbents and Absorbent-related Waste
- Cutting Fluids

### Parts Washing Solutions

After more than 50 years, Safety-Kleen continues to lead the Parts Washing Industry by providing unrivaled service and top-notch equipment. With our extensive line of manual and automated equipment, our high performance solvent and aqueous chemistries and unmatched service, we can provide the customized equipment and program your needs demand.
